

Cocoteanol™ is a stimulant-free & caffeine-free (<0.2% natural tea caffeine) product for clean pre-workout energy supplements. Cocoteanol™ is rich in polymeric R-oligomer flavonoids, natural theobromine, catechins and epicatechins.

Flavonoids are a group of polyphenolic compounds that occur widely in fruits, vegetables, tea, red wine, and cocoa. Cocoa products have the highest concentration of flavonoids among commonly consumed foods]. Over 10 percent of the weight of cocoa powder is flavonoids. Cocoa is unique in the type of flavonoids present – polymeric R-oligomers. The polymeric R-oligomer structural characteristics of flavonoids represent the molecular basis for both their hydrogen-donating (radical-scavenging) properties and their metal-chelating antioxidant properties of Cocoteanol™.

Cocoteanol™ provides significant benefits* including:

1

Supports neural stimulation & vasodilation for moderate to intense workouts*

2

Help reduce inflammation and free-radical damage caused by exercise*

3

Augments nitric oxide (NO)-mediated endothelial changes*
