

## ***Adapt to life's changes with the Queen of Ayurveda.***

SheVari4™ is a novel extract of the Ayurvedic powerhouse, Shatavari. Using our proprietary extraction process, the full-spectrum of Shatavarins are harnessed and standardized using repeatable HPLC methods and only validated reference standards. Shatavarins are important compounds that help women adapt to the stresses of life, and, more specifically, play an important role in balancing hormones, restoring mood, and promoting focus.

*Shatavari (Asparagus racemosus) is deeply rooted in Ayurveda. It is traditionally given to women to help them adapt to the many important stages in life. Modern science has now begun to prove what Ayurveda has known for millennia:*

***SheVari4™ is THE Women's Adaptogen  
— created by nature and standardized  
by Cepham.***

**Hormonal Balance**

**Mood Support**

**Focus**

# Why SheVari4™?

The Women's Wellness market is expected to grow more than 10% over the next decade. Interest continues to expand beyond traditional categories in the space. SheVari4™, with high concentration and neutral taste, provides a unique solution for Women's Wellness in a variety of delivery forms.
